

ROAD HAZARD PROTECTION

American Motor Products (AMProd) has teamed up with **Sonsio** to provide “people mover” fleets protection from Road Hazards. Road Hazard Protection will give you

peace of mind when you have a flat tire! Road Hazard damage occurs when a tire fails during the course of driving in a legal manner on a road maintained by state or local authority. Nails, glass, and potholes are the most common examples of road hazards.

Program Cost:

- Program included but optional in the AMP Annual Membership
- Upon Sign-Up of this Program, a \$15.00 charger per tire will be added to each tire purchase

Program Benefits:

- Automatically added to each of your Passenger and Light Duty Purchases.
- Applies to causes and conditions beyond the tire manufacturer's warranty.
- Provides 24/7 Flat Tire Changing Assistance nationwide up to \$75.
- Provides Reimbursement for Flat Tire Repairs up to \$20 for up to two (2) incidents during the covered period.
- Provides reimbursement for Tire replacement up to \$400 based on the amount of treadwear.

Upon Sign-up for this program on the membership, any tires you purchase on the AMP Michelin National Fleet Discount Tire Card Program or the AMP Value Tire Program will have Road Hazard automatically added to them. Once AMP has processed the tire purchase invoice, you will be charged the \$15 per tire and we will send you a receipt and contract for the Road Hazard.

This Road Hazard Program covers Eligible Tires for a term of 24 months from the purchase date printed on your Program Certificate, or until any part of the tire tread that comes in contact with the road has a tread depth of 3/32” or less, whichever occurs first.
